

ASX / MEDIA RELEASE

12 March 2010

Director Steps Down

Stirling Resources Limited (ASX: SRE) advises that non-executive director Paul Page has announced he will step down from the Board due to other work commitments and will formally step off the board effective 12 March 2010.

Stirling Chairman Jeremy Shervington said Paul had made a considerable contribution to Stirling throughout his time on the Board.

“On behalf of the shareholders, I would like to thank Paul for his contribution to Stirling, and wish him well for the future” he said.

Stirling Resources Overview

Stirling Resources Limited is a West Australian resources developer focusing on investment and development of copper, gold and zircon projects. It has significant investments in copper and zircon projects through major shareholdings in Redbank Copper (ASX: RCP) and Matilda Zircon (ASX: MZI).

The Company consists of highly experienced resource development and mining personnel with track records of creating shareholder value.

Stirling's strategy is to identify projects that comprise commodities that are considered to have strong future demand, and have favorable geological characteristics. The focus is on brown fields projects close to development or production.

Driven by the underlying fundamentals of the Chinese economy and the continued substantial urbanization process taking place requiring commodities such as copper, gold and zircon (for the use in ceramics and porcelain) Stirling is well placed to benefit from the resulting strong and continuing demand for these resources. Chinese growth is augmented by Indian economic growth requiring similar resources.
